

## Notice regarding the transition to optical mice

The PS2 ball mouse that comes with the conventional crossline generator OPVG-31 and 31Z 110 has become difficult to obtain. Therefore, starting from September 1, we will be changing to an optical mouse. In conjunction with this, we will provide a paid service for customers using the conventional ball mouse to transition to the optical mouse.

【Cost】 38,000Yen      Program rewriting, includes 1 optical mouse.

- ★ Warranty period after revision: 1 year
- ★ In order to perform the board rewriting work, it is necessary for you to send the main unit to our company.
- ★ Please bear the shipping cost to our company.
- ★ Please confirm the delivery date.
- ★ The ball mouse will no longer be usable after the operation.
